Education

RWTH Aachen University — Oct. 2023 – March 2026
B.Sc. Electrical Engineering and Information Technology — *Aachen*

École Polytechnique Fédérale de Lausanne (EPFL) — 2019 – 2023
B.Sc. Microengineering (5.2/6, transferred to RWTH after 4 completed semesters) — *Lausanne*

Lycée Franco-Allemand (LFA) — 2007 – 2019
German-French Abitur (20/20) — *Buc, France*

Work Experience

Tutor — 2016 – Present
Self-employed and at university

- Tutoring in Mathematics, Physics, and Chemistry for students grades 4–12
- Tutor positions in Computer Science (RWTH)

Metalworking Internship — July 2023 (2 weeks)
École technique des Métiers Lausanne — *Lausanne*

- Metalworking with turning and milling machines

Assembly Internship — July 2017
Airbus Defence and Space — *Immenstaad*

- Soldering and functional checks on the production line of the Do-DT25 target drone

Sample Projects

Bachelor's Thesis - Multimodal Sensor Fusion | *Python, PyTorch* — Sept 2025 – present

- Preprocessing and analysis of multimodal biomedical signals
- Prediction of signal quality for robust heart-rate estimation via signal quality–aware data fusion

Institute project at photonics lab | *Matlab* — Mar 2024 – Sep 2024

- Implementation of Fourier-Transform Infrared (FTIR) spectroscopy using a Michelson interferometer

EPFL Spacecraft Team | *KiCad, C++* — Sept 2022 – July 2023

- Design, testing, and integration of a PCB as part of the CanSat program
- Successful launch and recovery of a can-sized satellite using fins and parachute

Technical Skills

Programming: C/C++, Python, Matlab, Git, LaTeX
Hardware Design: Basics in KiCad, Fusion 360 and Catia V5
Electronics: Prototyping with breadboards, programming in microcontrollers (ESP32, Arduino)

Languages

German: Native
French: Native
English: C1
